About PROMIXCO

PROMIXCO started business 23 years ago as a supplier of healthcare products to various purchasing organizations in Bangladesh. It has since grown into a group of companies consisting of ten business units, engaged in both trading and manufacturing of mainly healthcare products.

Our factory has CE, ISO, FSC, BCSIR, DGDA, and GMP certifications and therefore guaranteed as conforming to international standards. We have expanded our product range over time and in 2010 became the first company to manufacture medical equipment and devices within Bangladesh.

The products manufactured by PROMIXCO are not only catering to domestic needs, they have a growing presence in international markets. We are thus contributing towards attaining the goals of the Government to have a flourishing and developed Bangladesh in a number of ways: (i) saving foreign exchange through import substitution, (ii) earning foreign exchange through export promotion, (iii) increasing industrial manufacturing capacity and diversity within the country, (iv) generating employment in the country, (v) helping ensure better health of the population which is essential for a nation's economic well-being, and (vi) enhancing the image and reputation of the country by supplying high-quality products to the global market.

We committed ourselves right from the beginning to supply quality medical equipment and devices at the most affordable prices, so that the financial burden of obtaining diagnostic and medical services at diagnostic centers and hospitals can be alleviated for the patients.

PROMIXCO provided humanitarian services during the Covid-19 pandemic by supplying - free-of-cost - safety gear and products to government, semi-government and non-government organizations. Our officers and staff personally ensured uninterrupted delivery of the products braving the risks of sickness and death to themselves, so that their fellow citizens may remain protected and safe.

We adhere to good corporate governance in our continuing endeavor to be good corporate citizens. We deliver value to our customers and stakeholders. We ensure worker safety and workplace safety in our state-of-the-art manufacturing facilities. We promote teamwork and prioritize employee interests and well-being. We honor our bankers and partners and engage in different social activities often in collaboration with them. We are confident that we symbolize trust in the business scenario of Bangladesh.

In return, we seek policy support from the Government, and access to incentives for manufacture of medical equipment and devices, which has been included for the first time as an industrial sector in the National Industrial Policy of 2022. We take satisfaction and pride in this inclusion because PROMIXCO, almost single-handedly, carried out a long campaign to raise awareness and create consensus among relevant Government bodies and policymakers to the fact that medical equipment and devices manufacture merited recognition as a distinct industry in the interests of the nation.

With a modest beginning in the trade and business in 2000, PROMIXCO has transformed itself into a conglomerate boasting 14 companies within its fold over time. These companies are now engaged in diverse areas of business, commerce, and industries. PROMIXCO has been consistently striving hard to become the market leader in hospital furniture, medical devices, pharmaceutical, agro-business, veterinary, fashion, furniture, engineering, and media industries. Indeed, in some of the areas, it acted as the pioneer and prime mover and is recognized as the leading brand. It excelled in quality, services, and commitment towards the stakeholders, and obtained and secured ISO, CE, and FDA certifications for its concerns. It tirelessly strived to equip a new breed of entrepreneurs in the import substitution medical equipment and devices sector. It played catalytic roles and worked with the government in recognizing and including medical device manufacturing in the National Industrial Policy 2022.

PROMIXCO is dedicated to delivering innovative and cutting-edge medical devices that revolutionize the health-care industry. It exercises the best endeavor to improve patient outcomes and enhance the quality of life across the globe in general and Bangladesh in particular.

I express my immense gratitude and heartfelt indebtedness to all the employees, government, bankers, and all other stockholders who have consistently been my source of encouragement and power throughout the long journey of PROMIXCO in becoming a trusted Group of Companies.

Mousumi Islam
Chairperson

A new era means new responsibilities, new possibilities, and new turning points. With the passage of just over two decades, PROMIXCO has turned out to be a leader in the domestic market and a modest player in the international sphere. The success story is the result of unparalleled and painstaking efforts from our visionary Chairperson, and numerous employees of the company who dedicated and invested their time and energy to grow the company to the towering heights. I strongly believe it is high time we take new steps to expand the horizons of our footprints into the wider marketplace overseas. These dreams could be a reality by harnessing and exploiting new technologies in manufacturing and distributing quality products at competitive prices. We at PROMIXCO will contribute and help make Bangladesh a smarter and prouder self-reliant economy in the comity of nations.

Samanta Islam
Managing director
